# Simplicity Go Pro

Simplicity VoIP offers the convenient **Simplicity Go Pro** app on iOS or Android. It extends VoIP functionality and features of the Simplicity platform to your mobile device delivering a full Unified Communications solution.

With **Simplicity Go Pro**, you are able to replicate your office phone identity when making or receiving calls from your mobile device using your own personal VoIP phone number via the app.

You do not use your cell number/cell minutes, **Simplicity Go Pro** only uses data.

Simplicity Go Pro enables you to

- Make & receive **Calls**
- Manage **Greetings**
- Add or search for **Contacts**
- See **Call History**
- Check **Voicemail** including transcription
- Use **Chat** and **SMS**
